SUMMARY

UI/Markup & Frontend Developer with 8 years of experience specializing in pixel-perfect, high-performance interfaces and advanced animations. Expert in turning complex Figma designs into production-ready responsive code in React and WordPress ecosystems. Strong background in performance tuning and legacy code refactoring.

SKILLS

- **Stack:** React, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
- **Animation:** GSAP, SVG, Canvas, Lottie
- **UI/UX:** Pixel Perfect, Responsive Design, Web Performance, PWA, SEO, Cross-Browser Testing
- **CMS:** WordPress (PHP, Twig)
- **Tools:** Git, Webpack, Node.js, Vercel, Netlify, Linux, Figma
- **English:** B2+ (Pre-Advanced)

EXPERIENCE

UI/Frontend Developer | Contract 06/2022 – Present

- Developed a React/TypeScript SPA/PWA with data-driven routes, dynamic Markdown rendering, asset optimization, and code-splitting for max Lighthouse score: [buhowski.dev](#) | [Source Code](#)
- Built e-commerce websites with pixel-perfect UI and high-performance responsive layouts
- Integrated REST APIs with client-side caching and React Hook Form validation
- Set up automated CI/CD production deployment pipelines
- Researched and architected a multilingual digital ecosystem concept, developing cross-industry strategic roadmaps, marketing strategy, and product vision: [Ecosystem Strategy](#)

Frontend Developer | LabTop Digital 03/2021 – 06/2022

- Developed high-performance, responsive e-commerce sites using WordPress, Twig, and SCSS
- Implemented complex animations using CSS, GSAP, Lottie, Canvas
- Optimized Core Web Vitals via media, font, and critical CSS/JS tuning
- Architected scalable SCSS systems with CSS Variables and reusable components
- Executed cross-browser testing ensuring 100% fidelity to Figma designs

UI/UX Developer | Digital Product Company 04/2018 – 02/2021

- Built a multi-page medical web application using React
- Developed UI components for enterprise web solutions and e-commerce platforms
- Optimized web performance and refactored legacy codebases
- Streamlined workflows for cross-functional product team collaboration
